

Model : JFD-W12

Model : JFD-W12		
Product Name:	4G dual lens Car DVR	Device designed for video and audio recording
Display:	N/A	 
Chipset:	MT3561 Cortex-A53 quad	
RAM+ROM:	1GB+ 8GB	
Video Resolution:	Front 1920*1080+ Inside 1280*720p	
Number of cameras:	2 Lens	
Front lens :	2MP sensor (GC2053, 140° view angle)	
Inside lens:	GC1064, 4g+IR(850)	
GPS Module:	GPS and Beidou dual model	
Communication band:	GSM B5/B3 WCDMA B1/B5 TD-SCDMA B34/B39 TDD-LTE B38/B39/B40/B41 FDD-LTE B1/B3/B5	
WiFi :	802.11b/g/n 2.4GHz	
Bluetooth:	Bluetooth 4.0	
Format/Compression:	MOV/MP4/H.264	
Language:	English/Русский...etc	
Power supply:	BWC cable/line, DC9V-16V	
Stamp date/time:	Support	
Microphone/Speaker :	Support *1.5W/8R	
Cyclic recording:	1/3/5 min (can customize)	
G-sensor :	Support	
Parking Mode:	Support	
Battery:	N/A	
Working indicator:	Red light internet is connected; Green light is recording; Blue light GPS is normal	
Working Temperature:	Working temperature : -20°C~70° Storage temperature : -30°C~80°C	
Bracket Type:	3M adhesive tape	
Software upgrade:	Through TF card or OTA online update	
Memory:	Max support 128GB micro sd card (class10)	
Special Functions	Dual lens recording (in front and inside), optional ADAS and DMS function with additional cost	
Color Box include	DVR, User Manual, 3M tape bracket, GPS module, power cable	
"Car Assist" Mobile APP functions		
Parking monitoring	Support for snapping pictures and front and rear camera videos	
Traffic recharge	Standard SIM card supports mobile phone car assistant traffic recharge	
Car life	Support driver video sharing interaction	
Live preview	Support real-time preview of 1080P variability	
Playback	Support GPS and video sync playback	
Equipment management	Support 1 mobile phone to manage multiple mobile phone rearview mirrors	
Online upgrade	Support	
Video download	Support point-to-point video downloading to mobile phone, no consumption of traffic resources, easy to view when disputes
